

Nashy.

Mr. Nashy Details the Troubles His Friends are Having with the Everlastingly Bothering Negro.

CONFEDERATE X BOARDS (which is in the State of Kentucky), April 12, 1870.—We are having trouble with the negro here, which will end, the Lord above only knows where. The negro has been in a few words. Such as the negro in the vicinity of the Corners of our town, and to leave land to the white citizens, the negro is the natural proprietor of the soil. Every Kentuckian has a common desire for the welfare of the negro, and that the negro lessor may be happy and contented. He lets him live hard for, say, \$10 an acre a year, the said land being with about that in fee simple.

This may be considered exorbitant by the unthinking, but it will be readily seen that men can't live any play draw poker, and bet on races on anything less. And then it must be taken into account that the negro wears the sustenance of the proud Caucasian above the war, and we see no reason why he should not be the same now.

And to the end that he shall not get too rich it is also included in the lease that the negro shall buy everything that he eats, drinks and wears of the owner, and that his crops shall be held by him until his advances are paid.

It is true that the negro generally comes out in debt to the proprietor several hundred dollars; but we never have heard of one who has not been able to give them the privilege of working out what they owed by cutting cord wood or glitters out railroad ties in the winter, which, consider we could demand cash, is a concession.

They are an ungrateful race. Deekin Program let one of them 20 acres of his farm, and the negro worked it well. He made good crops of corn and potatoes and such, and congratulated himself on the prospect of living comfortably during the winter. When the time for settlement came, in the fall, the Deekin took the entire crop, and demonstrated to the ungrateful man that he was in debt to him egregiously \$200. The negro could not understand it, but renewed the lease another year, paying off \$100 in his debt getting out railroad ties in the winter.

This second year was a tuff one on the Deekin, as he lost a power of money at the Louisville races, and consequently in the fall the negro worked him in debt \$400. Mirandy Program kept the account.

Now, what does this cursed, ungrateful nigger do? Remark that it struck him if he kept on working the Deekin's land, and worked hard and faithfully enough, he worked in debt, one more than the Nashy did, he undertook to leave for Kansas.

This was an attempt at repudiation, and while a white State may properly repudiate its indebtedness, a nigger indolent kin never be permitted to do it. We nip this attempt at swindling the Deekin in the bud. That nigger was notified that we must have his labor, to the end of develop the resources of the country, and that he must stay and labor, as he alius had done, and be content, as he should be.

Despite this warning he did get away to the river and was waiting for a down-bow boat, when he was mysteriously shot. Who did the rich ones not will never be known, but it was said that I-aker, Gavett, was in that neighborhood, and that just after the report struck he was seen to issue from the muzzle of his trusty double-barreled shot-gun.

There isn't only one way that we kin do biz with this people, and the case I cited is about the regular thing, the negroes are discontented generally, and are all desirous of getting away. They murmur. They say that they ain't allowed to vote, that they can't have any schools, and they are robbed by their labor, and that there ain't no redress for em, for the courts and such are agin em. They can't understand that they are morally our property anyhow—that we was originally robbed by em by that freed Linkin, and that we are entitled to their labor. What kin they want us schools, when the whites us this seckshun hev got along without em? Ez for votin, that is absurd. They haven't the intelligence.

The entire population hev bin notified that they can't go, and must live with us and enjoy her blessings in freedom. But they keep slippin off all the time, and there is the doleful prospect of the C ravers becomin a desert for want of labor.

I spose the radicals up the North will raise a howl agin this, but we don't keer. We hev got poseshun in the Capital, the Northern Democracy hev resumed their old poseshun, and we kin smile at their protestations. Ef we let the niggers off this easy they may consider it lucky.

The Death-rate of

Our country is getting to be fearfully alarming, the average of life being lessened every year, without any reasonable cause, death resulting from the most insignificant origin. At this season of the year, especially, a cold is such a common thing that in the hurry of every day life we are apt to overlook the dangers attending it, and often find too late, that a fever or lung trouble has already set in. Thousands lose their lives in this way every winter, while had Boeschee's German Syrup been taken, a cure would have resulted, and a large bill from a doctor been avoided. For all diseases of the throat and lungs, Boeschee's German Syrup has proven itself to be the greatest discovery of its kind in medicine. Every druggist in this country will tell you of its wonderful effect. Over 950,000 bottles sold last year without a single failure known.
